

22 July 1955

MEMORANDUM FOR: Colonel White

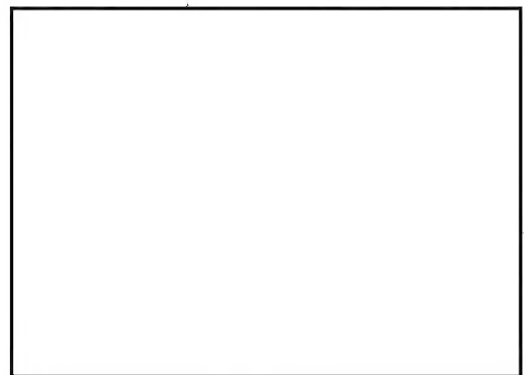

SUBJECT : Special Clandestine Services Orientation Course #2

1. Herewith OTR's analysis of the fruit of the Special Clandestine Services Orientation Course #2. Matt Baird suggests on the buck slip that you might wish to discuss with or Mr. Wisner the desirability of a follow-up session after the final running and after the problems have been defined. 25X1A

2. While you may well wish to do this, there would seem to be advantages to discussing at that time not merely the problems but the progress DD/S might have made in solving these problems.

3. I have noted that for the most part the specific problems discussed in Course #2 were previously discussed in Course #1. This suggests that the various DD/S components might be asked at this time to undertake staff studies and develop solutions of the particular problems. There does not seem to be a good reason to allow problems to roll around loose during the six months that will be lapsed between the first and fifth runnings of this Course before undertaking to do something about the problems.

4. If you share this view I will prepare for your signature memoranda requesting studies of the various problems defined thus far. 25X1A9A
